## WHAT TO DO AFTER AN ACCIDENT

Accidents happen, so it's a good idea to know ahead of time what you are required to do if you are involved in a crash. First, and foremost, you must STOP. And if anyone is hurt, you are required to get help. In addition, you must give your name, address and vehicle registration number to others involved in the accident.

### **DON'T LEAVE THE SCENE**

If you leave the scene of an accident that involves injuries without providing your information, your license may be revoked.

### **REPORT THE TRAFFIC ACCIDENT**

Any car accident that involves injuries or property damage over \$500 must be reported. In these situations you should call the local police department, sheriff, or highway patrol. If an officer investigates the accident, they will file a report.

### **DON'T BLOCK TRAFFIC**

If you can't move the vehicle yourself, you are required to get help or call a tow truck. Your car should never block traffic in any situation.

### **TICKET AND TRAFFIC COURT**

Many accidents are caused by a driver that broke traffic laws. If that is the case, then an investigating officer will file charges against the offending driver. If you are charged in a traffic accident, you will have the opportunity to explain what happened in court. Then the traffic court will decide the penalty.

### **AUTO ACCIDENTS WITH AN UNATTENDED VEHICLE**

If you hit a car, truck or other vehicle that is unoccupied, you must inform the owner. Leave a note with your name, address and license plate, and then report the accident to local police, sheriff, or highway patrol.

### **NOTIFY YOUR INSURANCE COMPANY**

**And Remember** - you have the right to have your vehicle repaired at **Bodyworks!**

# INDICATE WHAT HAPPENED ON THIS DIAGRAM

Use this diagram to sketch the scene of your accident. Write in street or highway names and numbers.

1. Number each vehicle and show direction of travel by arrow. You are vehicle number 1.
2. Use a solid line to show path before accident. Use a dotted line to show path after accident.
3. Show pedestrian(s) by drawing a circle(s).
4. Show railroad crossing by drawing an x.
5. Show distance and direction to landmarks; identify landmarks by name or number.
6. Indicate North by drawing an arrow.
